Organized by

Web Development Club : Department of IT, GU

Duration : 30/03/2019 – 31/03/2019

Venue : GUIST, Gauhati University, Guwahati - 781014

ABOUT WDC

WDC is a unique platform to promote learning & practicing of web development among us. It is an additional club for students who are interested in developing, coding and modifying websites. The knowledge of web is arguably one of the most valuable skills in the technology industry. Web development club: department of IT, GU is GUIST's official club designed to teach students about all the major skills needed to be good developers. The Web Development Club : department of IT, GU is a student led group with the aim of creating a community of students interested in learning web design & development. Our main aim is to allow students to expand their knowledge and skills, as well as to connect them with amazing opportunities.

ABOUT GUIST

The Gauhati University Institute of Science and Technology (GUIST) was set up at the university campus in 2009 to enhance quality and innovation in Technology and Applied Science education. The Programmes being offered by the Institute initially were the four-year Bachelor of Science (B.S.) and Bachelor of Technology (B.Tech.) Programmes, the two-year M.S. and M.Tech. Programmes, and Ph.D. programs in different disciplines.

ABOUT DEPARTMENT OF IT

The Department of Information Technology (renaming the Department of Computer & Information Technology from June, 2012) under the Faculty of Technology, GU has been established to facilitate state of the art infrastructure for different Undergraduate, Postgraduate and Research programmes in the field of Computer and Information Technologies.

The main vision of the department is to enable the bright minds of the region to pursue and establish themselves as prominent technology enthusiasts. The department always thrives to empower the students with the skills and knowledge required to survive in the ever changing and challenging IT industry. As the current trend has seen huge demand in the IT industry, Computer Science and Information Technology have been widely accepted disciplines in the students fraternity across the globe. The rising demands of the trained and skilled personals in those fields have been motivating and inspiring the students to undertake different programmes of studies. Looking at the need of local students, different programmes have been started meeting demands at different levels of studies. The Postgraduate and Research programmes are designed to build the capacity of the region in terms of human resource and local intellectual and technological resources.
